INTRODUCTION

The Wu-hsi Thermal Power Plant (Wang-ting) is located on the Yun Ho (Grand Canal) approximately 8.1 nautical miles southeast of Wu-shi, China.

BASIC DESCRIPTION

The power plant is rail, road, and water served and coal operated. It is partially secured within an irregularly shaped area measuring approximately 1,800 by 1,300 feet.

The plant was observed in operation on all the referenced imagery as evidenced by smoke emanating from the stacks.

Twelve transformers are discernible in the switching yard with each one connected to the generator hall by galleries. There has been no change in the the date of the latest photography used in the plant since referenced repor
